Matthew Page

Software Engineer

SUMMARY

Highly motivated software engineer with a significant interest in AI. Proven experience in creating and implementing full-stack applications. I am committed to providing an affable work environment.

WORK EXPERIENCE

Software Engineer at 100devs Agency

December 2022 — Present

- Acclaimed course and agency in full-stack development(HTML, CSS, JS, node.JS)
- Built modern full web applications utilising Javascript
- Collaborated with developers globally to program full stack applications
- Learning databases from MongoDB to relational databases using SQL.

Recent Projects:

Freelance Client (July – Current) – Currently working on a modern and responsive front-end website for a local company, at the moment in time it is confidential.

AnxietyAlly – Currently working on a full stack mental health application, planned features included: Journal feature, anxiety exposure planner and mental health tips and meditations.

Voices From The Liminal – A full stack social media site that has content feeds, individual post pages with comments, profile pictures and likes functionality.

Kanplan – A simple but intuitive and beautiful kanban application for developers.

Other Projects: WhoIsHigher card web browser game, website template for grassroot organisations and charities, on-demand background colour picker for a partnered Twitch streamer, and many more

Sales Advisor and 'Tech Guru' at O2 | Kingston Upon Hull

2019 – 2021

May 2022 - present

Excellent interpersonal skills to get to know customers to provide the best experience possible. Helped customers with any tech related queries and troubleshooting.

VOLUNTEERING

RNIB Roaming Tech Support | East Yorkshire

March 2018 — 2020

Helped sight-affected members of the charity in anything technology related, from setting up mobile and tablet devices to WindowsOs accessibility software assistance.

NHS Men's Group | East Yorkshire

June 2018 — 2020

Helped run an over 50's men only mental health group. The group was biweekly where members could make friends and enjoy activities together.
